MEETING DATE: Thursday, August 24, 2017
AGENDA ITEM #: 9
ITEM: CORRESPONDENCE

RECOMMENDED ACTION:

No action is recommended.
This message was submitted to the Library Commission.

comments: Hello!

My name is Shivanshu Gupta, I am an intern at YCPC (Youth Competitive Programming Circle) an organization that would like to spread programming to the youth and to shows its capabilities. My specific team teaches children of all ages programming with Minecraft, as it is a popular indie- sandbox game which many children love due to its creativity and limitless possibilities that come with it. Since a countless number of “future programmers” already know how to play Minecraft, we thought it would be interesting to implement real world programming, to make their tasks in Minecraft a lot easier. We were wondering if you would like to help us pursue our initiative, by hosting the event. If you are interested please reply to this email.

Thanks.
-Shivanshu
